

2024 CEA | Sports

Aim

Involving oneself in curriculum extension activities (CEA) supports holistic growth and development of learners. Such opportunities provide scope for connection and belonging with peers and other members of the Mercedes College community for the purpose of like-minded pursuits beyond the curriculum.

With a focus on developing knowledge, skills, strategies and tactics for continuous improvement, there are targeted opportunities for students to get involved at a level that is appropriate for them – from *participation to (high) performance*.

Curriculum extension activities are led by suitably qualified and/or experienced people – including staff, and external members of the school community. There are also opportunities for Senior Students to take leadership of younger groups as appropriate.

| Group Name | Year Levels | Cost | Day/Time |
